

**NATIONALLY KNOWN FLIERS SPEND WEDNESDAY NIGHT IN THE AIR CAPITAL**

Some of the fliers in the National Air tour which stopped last night in Wichita, many of whom are of international reputation. Upper row, left to right, R. Willett and John Livingston, crew of the ship now leading the fleet; Mrs. Keith Miller, noted Australian pilot; Mr. and Mrs. Stanley Stanton, popular Wichita couple making the trip in a Cessna, which stands well up in the list; Dale Jackson, half of the noted endurance team which holds the world's record, and Lee Shoehair, youthful winner of the recent Los Angeles-Cleveland derby. Lower row, left to right, Steve Lacey, Cessna pilot, who came in second yesterday; William Welborn, Spartan pilot; R. A. Nagle, Bellanca pilot; Newman Wadlow, Travel Air pilot, and May Halzlip, American Eagle pilot. In the circle is D. Morgan Hackman, who failed to reach Wichita because his ship cracked up near Fredonia. Passengers on the Curtiss Condor are shown in the center.—Staff Photos.
